

The Eight Core Policies of the Australia First Party

1. Ensure Australia Retains Full Independence.

Protect our sovereignty (national, constitutional, and personal) and maintain an adequate defence whilst being compassionate and fair in our Nation's international dealings.

2. Rebuild Australian Manufacturing Industries.

This is the only way we can be self-sufficient. It will provide jobs for our children, and help buy back the farm and allow Australia to be free of foreign debts. Our infrastructure has been run down over many years - it must be rebuilt. We must improve the practicality and relevance of our educational systems, and target government support for industry to diversify, innovate, perform, and expand. We recognise that small business is fundamental to this policy. A satisfactory financial environment is also essential.

3. Control Foreign Ownership.

Bring foreign ownership and investment back under control.

4. Reduce and Limit Immigration

Immigration mistakes can be big long-term mistakes. Immigration policy must take into account social cohesion, employment opportunities, urbanisation and environmental issues.

End the divisive, government-funded and institutionalised policy of multiculturalism.
